

Hamilton County ESC Service Solution Rates 2022-2023

Hamilton County ESC is proud to partner with districts and schools as they work with great enthusiasm and passion while serving their communities!

About Us

Our Quality of Service

We provide unparalleled services to districts and schools. We employ nearly 900 certificated personnel, licensed by the Ohio Department of Education, and credentialed in particular areas such as National Board Certification. On-going professional development keeps employees abreast of the most recent discoveries within their respective fields. University Partnerships provide avenues for recruitment and learning. A multi-district perspective combined with connections to legislation and the Ohio Department of Education allows us to adapt to changes immediately and deploy innovative solutions to complex challenges experienced by schools and districts. Additionally, our size allows us the flexibility to create and turnover new services responding to the immediate needs of districts and schools.

Our Experience in Providing Services

We've been making a difference in districts and schools for more than 100 years. Created initially to serve by drafting courses of study for school systems, providing in-service training for teachers, and assuring quality classroom instruction through supervision and evaluation, we have grown to offer more than 80 unique services (including direct services to students) to approximately 2,500 customers spanning, but not limited to, Hamilton, Butler, Clermont, and Warren counties in Ohio.

Our Bundling of Services Adds Value

We offer a continuum of services enabling districts and schools, combined with our partnership, to ensure all students' needs are met and provided with opportunities to achieve their greatest potential. The integrated work of a team of our consultants from areas such as instructional specialists, related services, specialty services (ex: assistive technology, behavior, job coaches, and transition coordinators), school improvement, English language support, instructional services, technology services, and early childhood programming allows us to be responsive and proactive when providing innovative solutions for districts and schools. As demonstrated by the 8,000 items in our material library and more than 5,000 apps, we possess resources for unique student needs. Our consultants function as a team – working collaboratively with our people and yours – to identify, deliver, and provide optimal service.

Our Ability to Provide Service Regionally and Beyond

Our history demonstrates our ability to service districts and schools regardless of their geographic locations. Our consultants travel all over Ohio and to parts of Michigan, Kentucky, Tennessee, and Florida advancing education. We employ nearly 900 consultants with an expansive range of certifications and specializations. Our history, combined with the extensive knowledge of our employees attained through continued learning and experience, and the advancement of technology, opens borders for partnerships around the United States.
