

ADDRESS YOUR SCHOOL PSYCHOLOGIST SHORTAGE – VIRTUALLY!

We know finding and keeping qualified school psychologists is a growing challenge. **Our Virtual Assessment Team (VAT)** is designed to help districts alleviate staffing shortages, reduce evaluation caseloads, and ensure students get the timely support they need.

Our team specializes in working with upper elementary, middle, and high school students, with a focus on ETR re-evaluations primarily in the OHI and SLD qualification categories.

HERE'S HOW IT WORKS:

ON-SITE SUPPORT:

An Educational Specialist visits your building to conduct observations, complete academic assessments, and collaborate with your staff.

VIRTUAL EXPERTISE:

A licensed school psychologist runs all evaluation meetings, coordinates with your school-based team via secure virtual platforms, ensuring every step is handled professionally.

SEAMLESS COLLABORATION:

We partner closely with your existing staff through email and virtual meetings, providing flexibility and efficiency without sacrificing quality.

Let us help you keep evaluations moving, support your team, and meet compliance timelines while **lightening the load on your school psychologists.**
